THE HYDRO AND ELECTRIC ENERGY ACT

ENERGY RESOURCES CONSERVATION BOARD

IN THE MATTER of a permit and  
licence to Alberta Power  
Limited authorizing the  
construction and operation of a  
transmission line in the Peace  
River - Friedenstal Area

CANADIAN

PERMIT AND LICENCE NO. AP 80-60

JAN 22 1981

WHEREAS Alberta Power Limited by application registered on November 19, 1979, applied to the Energy Resources Conservation Board for a permit to construct and a licence to operate a transmission line designated as AP 275L in the Peace River - Friedenstal Area; and

WHEREAS the Board is prepared to grant the application, subject to the conditions herein contained, and the Deputy Minister of the Environment and the Deputy Minister of Renewable Resources, representing the Minister of Energy and Natural Resources, each has given his approval, hereto attached, insofar as the application affects matters of the environment.

THEREFORE, the Energy Resources Conservation Board, pursuant to The Hydro and Electric Energy Act, being chapter 49 of the Statutes of Alberta, 1971, hereby grants to Alberta Power Limited (hereinafter called "the Operator") a PERMIT to construct and a LICENCE to operate a transmission line, subject to the provisions of the Act and regulations and orders pursuant thereto and to the following terms and conditions:

1. The route of the transmission line designated as AP 275L shall be as shown on the attachment hereto, marked Appendix A to this permit and licence.

2. Notwithstanding clause 1 hereof, where the route of the transmission line is prescribed to traverse any parcel of land of common ownership, the Board, if it considers it

appropriate and reasonable to do so, may by stipulation, vary the prescribed location and route of the transmission line within the boundaries of such parcel of land.

3. Specifications of the transmission line shall be and include as follows:

- (a) the line shall be designed, built for and operated at a nominal voltage level of 144 kV, and
- (b) all structures shall be of wood-pole, steel or concrete construction,

and as more particularly described in an application to the Board from the Operator, registered on November 19, 1979.

4. The Operator shall satisfy the Board within 30 days of the completion of the construction of the transmission line that such construction has been in accordance with the provisions of this permit and licence and The Electrical Protection Act and regulations and orders pursuant to that Act.

5. The Operator shall, within 30 days of the time that the transmission line is first energized, notify the Board that the transmission line has been energized and is operating within the specified voltage range.

6. Insofar as it pertains to matters of the environment, this permit and licence is subject to the approval of the Deputy Minister of the Environment, hereto attached as Appendix B, and to the terms and conditions therein contained.

7. Insofar as it pertains to matters of the environment, this permit and licence is subject to the approval of the Deputy Minister of Renewable Resources, representing the Minister of Energy and Natural Resources, hereto attached as Appendix C, and to the terms and conditions therein contained.

8. (1) Subject to subclause (2), the Operator shall satisfy the Board within two years of the date hereof that construction of the transmission line as permitted herein has been completed.

(2) On its own motion, or upon the application of an interested party, the Board may stipulate such later date for completing the construction of the transmission line as it considers suitable under the circumstances.

9. The Board may

- (a) cancel or suspend this permit and licence, in whole or in part, for failure of the Operator to comply with any provision of the Act, the regulations or the terms and conditions set out herein, or
- (b) amend this permit and licence as it deems suitable in the circumstances.

MADE at the City of Calgary, in the Province of Alberta, this 12th day of January, 1981.
